SAVINGS INFORMATION

??

Oakhill Correctional Institute's (OCI) prepares offenders for release into the community by providing education, treatment programs, work resale opportunities, and pre-release programming. OCI was seeking to increase their energy efficiency at their facility, and provide safe and quality environments. The Wisconsin Department of Corrections partnered with ESG to implement energy conservation measures.

SOLUTION

The following energy conservation measures were implemented:

- Lighting Retrofits
- Steam Trap Replacements
- Water Conservation
- Building Automation System
- Mechanical Retrofit
- Building Envelope Improvements

RESULTS

OCI is now committed to providing safe and quality environments. From their partnership with ESG, OCI will save more than 2.6M in energy savings over the 15 year term of their contract.
